## TOTALS 548 LIVES

Number of Injured During Chilean Catastrophe Merely Estimated

SANTIAGO, Chile, Nov. 17.—Revised figures given out by the minister of interior place the total of those killed in last Saturday's earthquake at 548 which is considerably below the earlier reports.

The number of injured is only partly estimated, the total being at \$37, but those coming under this category in Valparaiso and Casablanca are described in the reports as "innumerable."

The report says that the destruction at Antofagasta consisted of the partial demolition of some privately owned houses, the loss of a number of boats and damage to the wireless plant. (Herald Tribune, Mexico)

houses and Pampa Saliterra escaped unscathed. At Talca eight houses were lost. Valparaiso is in ruins with 323 dead and the injured estimated at around 600. Twelve prisoners were killed and 13 injured in the collapse of the jail.

The entire lower section of Chacaral was razed, the commercial quarter, railway station, a school and the workshops being among the buildings destroyed. Seventeen are dead and many injured.

At Copiapo approximately half the houses were destroyed and others rendered uninhabitable. The jail, law court, theater and church were all destroyed, and the town hall, postoffice and departmental engineers' offices badly damaged. The dead there number 84. A hospital has been established in a motion picture theater but only 48 patients can be accommodated at a time.

The earthquake was particularly violent in the vicinity of the Copiapo cemetery, the movement thrusting a number of corpses from their graves. Debris obstructs the cause, causing inundations and soldiers are pulling down the tottering walls. At Calera the tidal waves carried away the railway station workshops, custom house and destroyed the mole. There were no casualties.

Similar damage was suffered at Curizal Bajo. The town of Curizal Alto is in ruins.

Preirina was destroyed. Eighteen were killed in the town and 60 in the district. At Huasco the tidal wave caused small damage, but eight deaths. At Huasco Salto 12 are dead. At Vicuña the government house, police barracks, high school and other buildings are in complete ruins and the church damaged. There was no loss of life. The extent of damage at Rivadavia was considerable but has not been definitely established. At La Serena 30 houses are uninhabitable, the town hall badly damaged and a hospital belonging to the Area regiment destroyed. Three persons were injured.

The Victoria quarter of Coquimbo was swept away by tidal waves, the railroad station was destroyed and the building of Grace & Co. demolished. Twenty-four are dead and 12 are injured. The town of Tenoa was destroyed, but there were no casualties.
